About Levvel >>

We are Levvel—experts in youth and family. We help children, youth and families in difficult situations get back on track, enabling them to face the future with a solid foundation. Levvel offers a wide range of help, from parenting support to highly specialised youth care. We offer services for children aged 0 to 23 and their siblings, parents or guardians.

Working with families >>

Before counselling begins, we work with you, your (foster) parents or guardians to create an action plan that suits you. We listen carefully to your needs and wishes and pay close attention to what you really need. That is at the core of everything we do. We work intensively with your (foster) parents, family members and other people in your environment. We also work with other social workers. We look for the best solution together.

Costs >>

Do you want to know more about the cost of the help you receive from Levvel? Much of Levvel's help is reimbursed by the municipality or your health insurer. The cost depends on your age and the type of help you need. In some cases, you may receive double child benefit. You can check this with the SVB.
